Faculty of Education

Memorandum

To: Members of Academic Council

From: William J. Hunter, Dean

Date: April 10, 2006

Re: Sessional Dates: BEd Consecutive Program

At its meeting of May 16th, I would like to propose the following motions:

1. That Academic Council reconsider its February 2006 resolution approving sessional dates for the BEd Consecutive Program in the Faculty of Education for 2006-07 (two-thirds majority required); and
2. That Academic Council approve the revised sessional dates for the BEd Consecutive Program in the Faculty of Education for 2006-07 as set out in the attached document.

Rationale:

The Faculty of Education Faculty Council re-examined the dates that had been approved by Academic Council in February and found them lacking on two counts: they were out of step with the dates approved for all other programs and there was no midterm break in the Winter term. Given the intensity of the one-year program, the Faculty believes that a midterm break is essential for students. The Faculty recognizes the extraordinary nature of this request and acknowledges that reconsideration can only take place under the provisions of By-law 8.18 ("No matter decided by the Academic Council or by a committee of the Academic Council or of the Board or referred to the Board and confirmed by it under the provisions of section 8.17 may be considered again by the Board, the Academic Council or the committee within twelve months of the meeting at which the matter was decided or of the Board meeting at which the action was confirmed, unless a motion for reconsideration is carried by a two-thirds majority of the members of the Board, the Academic Council or the committee, as the case may be.").

The Faculty also recognizes that these proposed dates extend into May when summer courses will have begun in other Faculties. While the summer session has proved extremely popular every year, the Faculty does not anticipate a classroom problem in 2007. Should classroom availability become a problem in future years, the Faculty could use practicum days or weekends for its proposed culminating activities.
