

Graduate Studies in Education in the Digital Age

This online program is an excellent professional development opportunity for educators. Earn a graduate diploma by completing four courses in the field of Education in the Digital Age. If you are successful in the diploma program and wish to continue your graduate education, you may apply to the Master of Education program.

Program Details

- Course-based
- Synchronous online delivery
- Full-time and Part-time study
- Approximate completion time: four to eight months (based on full-time study)

Fields

Digital literacy:

Examine what we have learned about the impact of digital technologies to this point and experiment with emerging web-based social software.

Digital tools for constructing knowledge:

Explore and analyze the educational affordances of a wide range of digital tools.

Educational technology and communication:

Examine various theories of communication and learning and their application to traditional and non-traditional learning settings.

Mental health and wellbeing in the digital age:

Focus on the challenges and benefits of technology with respect to mental health, healthy development, positive social interactions and inclusive communities.

Sample courses

- Innovative Digital Pedagogies
