

Bachelor of Education

In this program you will learn...

- Strategies to become an effective educator for Primary/Junior and Intermediate/Senior levels.
- How to integrate digital technologies and AI into modern teaching practices.
- The foundations of thoughtful, well-informed, and socially responsible teaching.
- How to develop futures literacy and lead innovation in education.
- How to apply for certification and transition confidently into a rewarding teaching career.

Program highlights

16-month program allows you to apply for certification and enter the workforce a full term ahead of those in most other BEd programs.

Technology and learning are emphasized to help you become leaders in AI and futures literacy.

One fully online semester; Three in-person semesters at our vibrant downtown campus.

Acceptance to Master of Education for BEd graduates who obtain a 3.7 GPA or higher and meet the graduate studies admission requirements.

What will I study?

PJ (Kindergarten to Grade 6)

This Primary/Junior (PJ) program integrates technology into mathematics, coding, science, arts, language, social studies and physical education. We emphasize building community, equity, diversity and teaching for inclusion, mental health, online learning and reflective practice.

Applicants are required to have two teachable subject areas. We offer:

- Biology
- Chemistry or Physics
- English
- General Science
- Health and Physical Education
- History
- Mathematics

Eligibility

Applicants must hold an undergraduate degree from a recognized university and have a minimum 3.0 GPA in their best 10 full-year or best 20 half-year courses at the time of application. Preference will be given to applicants with a four-year honours degree.

Future IS teachers (grades 7 to 12) must complete the equivalent of five full-year courses for the first teachable subject area and three full-year courses in the second teachable subject with a minimum 2.7 GPA.

IS (Grade 7 to 12)

This Intermediate/Senior (IS) program focuses on digital literacies, learning and development, coding and communication, online learning, equity, diversity and teaching for inclusion, mental health and reflective practice.
