

Educational Psychology

In this program you will learn...

- How biological, cognitive, emotional, and social factors influence learning across the lifespan in diverse populations.
- Ways to apply psychological theories and research methods to assess, support, and enhance educational success.
- Inclusive educational strategies that address barriers in diverse learning environments.
- Integration of digital tools and technology into innovative teaching and learning practices.
- To understand mental health factors and their impact on educational development and achievement.
- Evidence-based approaches to educational assessment, guidance, and intervention.
- To build workplace-ready skills through experiential learning, research, and community partnerships.

Students can further their learning by choosing to study in one of five specializations:

- ▶ **Aging & Learning in an Era of Technology**
- ▶ **Developmental Sciences & Learning**
- ▶ **Inclusive Educational Studies**
- ▶ **Mental Health & Special Education**
- ▶ **Learning Sciences & Technology**
